My niece, Bianca, has no more sore throat and fever. And I can lead this morning's BSF with a testimony of a heart that is calm and peaceful because of who Jesus is: Messiah, healer, provider. His faithful hand has held me on my boat of life. Jesus my joy, my hope.
- Sis Gigi Edu on **Doc Rochelle's dad**: He has been taken to the hospital already because he needs to be placed on IV. He was observed to have difficulty in drinking water as he was being given his meds. She praises God that she was able to find a good caregiver who is willing to provide care for a COVID patient. Prayer for favorable results from the tests, wisdom to the doctors for treatment, and full recovery. Please pray also for her niece's healing and also for strength for Doc Rochelle as she monitors her dad from home and cares for her niece same time.

That's the best description he can give us. So parang his fever was like for 3 hours tapos back to normal na. Tipid, one paracetamol lang -- Lord willing, tuloy-tuloy na. Thank you for standing in the gap for us!!!
- Deacon Kakay Maglalang for **Tita Fe Emma Baugbog**: My son Mac B is recovering. May konting ubo na lang at tapusin ang 14 days quarantine requirement. Pls continue mga kapatid to pray for his full healing & restoration to good health! Thank you TAP!

**JAN 11 (Tuesday)**

- Sis Gigi Edu from **Doc Rochelle Belen:** I would like to thank you for all your remembrance for us in prayer. I continue to request for prayer. Kindly pray that everyone involved in the medical care of my father will be able to closely monitor him. He is now attached to a cardio monitor. May God give them wisdom in every procedure they will do. After tests were given to him, it was found that there were many complications brought about by the virus and his inflammatory markers were high. Anyway - Praise God, upon treatment of medicine, good results were observed. His appetite improved and he's able to talk . Please continue to pray that he will continue to improve. We entrust everything to God. As for my niece, she is still in isolation, but no more symptoms po - no fever, no cough. Praise God! Thank you po sa lahat!
- **Deacon Kakay Maglalang:** Hello po, update lang po. Today, I feel a lot better po, praise be to our God! Medyo may ubo lang but not persistent naman na and headaches na lang. Pao has no fever na this morning, yehey! but has sore itchy throat. He is on antibiotics na po. Karyn's been taking good care of us until yesterday. She developed high fever na din and getting terrible headaches. Please be praying for us ni Pao to be completely fever-free na and all other of his symptoms to be addressed by the antibiotics he is taking. Please pray that Karyn would have appetite to eat and for her fever to break soon too. We praise our God for the sustenance that He gives and His perfect timing for everything!
- Deacon Kakay for **Tita Belle Limueco's family:** for healing of cough and colds, esp for Tita Belle who is on antibiotics already.
- Deacon Kakay for **Gilead Aquino** for health protection. He is not feeling well. Sana po ay di magprogress. Mom Judith Aquino is thankful that she feels better though she also initially felt sickly. Must be the cold weather lang but still, we depend upon our great Jehovah Rophe for our healing.
- **Sis Cynthia Morales:** Please pray for my apo, Nashly Joie; may lagnat sya mula pa Sunday pero may panlasa naman. Pati si Mama nya. si Joie may ubo madikit pero walang lagnat. God's complete healing sana for them.
- **Elder Nilo Mabugat:** Good day! Kindly help us pray for Landa's successful surgery 3 PM tomorrow for detached Retina. Her left eye has partial shadows in her vision already. Thanks.

**JAN 12 (Wednesday)**

- From **Sis Armi Grace de la Fuente:** Good morning po. Pls pray for my children. They're all sick with cough and colds. The boys had fever but as of now wla na po. Si Adie po is in the early stage of asthma while Gian has phlegm and can't even sleep due to excessive coughing. Mama is also down with fever, and Dadi with cough. Please pray for their healing. Thank you po.
- Kindly pray and help promote for **P.Jhon Descartin** for our **MIDWEEK ONLINE SERVICE**. Thanks!!!

- From Sis Gigi Edu from **Doc Rochelle**: Last Sunday, her father developed edema on his left arm up to the chest, maraming pasa. No rounds by the doctors have been made yet, but she is hoping that someone will physically see his condition today so he may be given relief because he is in pain. His pain last Sunday was 10/10, and this morning was 9/10. He is able to eat, but he is in pain. Reports are given by the caregiver, praise God for providing them with efficient help. The caregiver's name is Ruth Macahilas. Kindly pray for protection for her, too. Doc Rochelle's dad is being referred to a hematologist because of the hematomas that appeared in his left arm. Treatment for CoVid has not started because creatinine is above normal. This is also a big prayer item. This needs to lower so that treatment can start. She prays that his dad will be relieved of pain and be comfortable. She and her sister, Christine (who is in the U.S.) also feel sad because they are not able to personally provide care for him. However, praise God for technology, they are able to do video calls everyday and able to share responsibility in deciding for their dad. Doc Rochelle is at home caring for her niece. Her niece, Raizel, though with COVid, too, is doing better. Please continue to pray for her full recovery as well. Also pray for Doc Rochelle and Christine as they monitor their father. Pray for peace of mind, sustained strength, and good health. There is good news on one test result of Doc Rochelle's dad - he had no stroke. It was suspected that he had one because of his lack of mobility and overall weakness. Doc Rochelle and her sister Christine, extends her gratefulness to everybody for praying with her for her father and niece.
- From Sis Gig Edu from **Maglalangs**: Magandang hapon po!  
So far it's fever-free Day 3, 2 and 1 for me, Pao and Karyn, respectively! Hooray!  
And all praises to God, our Jehovah Rophe! ❤️ Praying na tuloy-tuloy na po 🙏  
I am still closely monitoring Pao, Karyn and self 🙏 We are dealing with the following for now:  
- runny nose and slight coughing for me (phlegm present 😞)  
- coughing and sore itchy throat for Pao  
- headache and tummy trouble for Karyn Maraming salamat po sa panalangin!!!  
Thank you for all the prayers!!!!
- From Sis Gigi Edu on **Doc Rochelle's dad**: She was just able to talk to the doctor today. Creatinine level did not lower as hoped, but increased from 185 to 280 instead. They are thinking of quickening treatment due to Covid and to standby for dialysis. There is consideration to transfer hospitals because immediate management is not able to be done due to a lack of nursing care, patient and doctor interfacing. Please pray for wisdom for Doc Rochelle and sister, Christine, in making the decision about this and also for provision since Doc Rochelle's dad has no health card anymore. It has been cut off after he turned 75. Covid fee is different from a regular patient. He is for referral to hematologist due to the hematoma. Salamat po sa pagiging katuwang sa panalangin!
- From Sis Gigi Edu on **Doc Rochelle's dad**: She has been trying to call her dad's doctor at Medical City since yesterday, but it has been difficult to contact them. Praise God that she managed to contact the cardiologist today. However, since he is also a senior citizen, he will not be able to see his patient. He recommends that if there is a vacant slot, they should arrange for her dad to be transferred to a Covid care unit. Please pray for a slot to open for Doc Rochelle's dad to be transferred to this tertiary hospital. Please pray that he will not be refused admission, but that he will be placed in Covid care unit. In the present hospital, the doctor visited him only after 3 days. The doctor has suggested ICU care and dialysis, but Doc Rochelle and her sister, Christine, hope these will not be the case. They wish to transfer their dad so that he will receive better hospital care, will be closely monitored, and be given immediate treatment, too. Please pray for proper and smooth coordination between hospitals once a slot opens. Thank you po.
